

# Pressure Gauge kit

material stainless steel

straight type

E 09.12.03

ed.20.01

The pressure gauge kit is used for measuring steam pressure or pressure in hot liquids where the pressure gauge must be protected against temperature higher than 50°C

## Material stainless steel

### Straight type G3/8" or G1/2"

#### Pressure Gauge

Type 2840 with casing dim Ø 100 mm  
pressure element of stainless steel  
See datasheet E02.08.02

#### Plain valve with test connector

Plain valve with test connector type 441 SK  
Material: stainless steel  
See datasheet E09.01.01

#### Pressure Gauge syphons

Pressure Gauge syphons type 8140  
Material: stainless steel  
See datasheet E09.03.01

#### Plain valve

Plain valve type 441 S  
Material: stainless steel  
See datasheet E09.01.01

#### Connection piece

Connection piece type 8110  
Material: stainless steel  
See datasheet E09.07.01

#### Welding connection piece

Welding connection piece type 8160  
Material: stainless steel  
See datasheet E09.03.01

#### Gasket (5 pc)

Gasket type 8081 G3/8" or 8082 G1/2"  
Material: Cu  
See datasheet E09.08.01

### Straight type - connection G3/8"

Pressure	Connection	Code
0-2,5 bar	G3/8"	96352428
0-4 bar	G3/8"	96352421
0-6 bar	G3/8"	96352410
0-10 bar	G3/8"	96352411
0-16 bar	G3/8"	96352412
0-25 bar	G3/8"	96352422
0-40 bar	G3/8"	96352437
0-60 bar	G3/8"	96352433
-1/+5 bar	G3/8"	96352423

### Straight type - connection G1/2"

Pressure	Connection	Code
0-6 bar	G1/2"	96352462
0-10 bar	G1/2"	96352467
0-16 bar	G1/2"	96352466
0-25 bar	G1/2"	96352454
0-40 bar	G1/2"	96352438
0-60 bar	G1/2"	96352463
