

Pressure Gauge kit

material stainless steel

angular type

E 09.12.04

ed.17.01

The pressure gauge kit is used for measuring steam pressure or pressure in hot liquids where the pressure gauge must be protected against temperature higher than 50°C

Material stainless steel

Angular type G3/8" or G1/2"

Pressure Gauge

Type 2840 with casing dim Ø 100 mm
pressure element of stainless steel
See datasheet E02.08.02

Plain valve with test connector

Plain valve with test connector type 441 SK
Material: stainless steel
See datasheet E09.01.01

Pressure Gauge syphons

Pressure Gauge syphons type 8150
Material: stainless steel
See datasheet E09.03.01

Plain valve

Plain valve type 441 S
Material: stainless steel
See datasheet E09.01.01

Connection piece

Connection piece type 8110
Material: stainless steel
See datasheet E09.07.01

Welding connection piece

Welding connection piece type 8160
Material: stainless steel
See datasheet E09.03.01

Gasket (5 pc)

Gasket type 8081 G3/8" or 8082 G1/2"
Material: Cu
See datasheet E09.08.01

Angular type - connection G3/8"

Pressure	Connection	Code
0-2,5 bar	G3/8"	96352424
0-4 bar	G3/8"	96352425
0-6 bar	G3/8"	96352407
0-10 bar	G3/8"	96352408
0-16 bar	G3/8"	96352409
0-25 bar	G3/8"	96352426
0-60 bar	G3/8"	96352444
-1/+1,5 bar	G3/8"	96352429
-1/+5 bar	G3/8"	96352427

Angular type - connection G1/2"

Pressure	Connection	Code
0-6 bar	G1/2"	96352449
0-10 bar	G1/2"	96352450
0-16 bar	G1/2"	96352451
0-25 bar	G1/2"	96352452
0-60 bar	G1/2"	96352464
