

Block-and-bleed valve IV201

2-valve manifold - Square form angled

Design female x male connection

E 09.16.03

Ed.22.01

IV201

Block-and-bleed valve 2-valve manifold

Square form angled

Connection female x male

Material body stainless steel 316L

Without mounting bracket hole

Material packing PTFE or graphite

Nominal pressure: 6000 psi / 420 bar

With vent connection

NACE Sour Gas Service

Inspection certificate 3.1 EN 10204

all wetted parts material
