

Block-and-bleed valve IV211

2-valve manifold - Flat form angled

Design female x female connection

E 09.17.02

Ed.22.01

IV211

Block-and-bleed valve 2-valve manifold IV211

Flat form angled

Connection female x female

Material body stainless steel 316L

With bracket holes for mounting with bracket

Material packing PTFE

Nominal pressure: 6000 psi / 420 bar

Vent connection 1/4 NPT female with plug

NACE Sour Gas Service

Inspection certificate 3.1 EN 10204

all wetted parts material

For more information: WIKA Datasheet AC 09.19
